

ATHAR SHAIKH

Mechanical Engineer

Objective

To secure a challenging position in a reputable organization to improve my learning, Knowledge, and skills.

Language

- English
- Hindi
- Kannada

Skills

- Solid Edge
- Ansys
- CATIA Editor V5
- PLM Tool
- Mini Tab
- Product Design
- Design

Summary

A dynamic and innovative mechanical engineer with close to one year of experience in the Research and Development sector in an renowned multinational corporation focused on airbag and seat-belt manufacturing. Proficient in utilizing engineering principles and cutting-edge technologies to drive the design and development of mechanical systems and components.

Education

- **Don Bosco High school, Sirsi**
High school-2017 61.72%
- **R N Shetty Polytechnic Sirsi**
Diploma-2019 70%
- **RNSIT Bangalore**
BE-Mechanical Engineering-2023 GPA-8.75

Project History

- **Gas Leakage Detection and Control**
Detection of gas leakage and preventing major fire hazards by taking precautionary measures
- **Sea wave power Generation**
Built a prototype to replicate the Sea Shore Power Generation model which generates electrical power from renewable sources such as waves or tidal energy.
- **Design and fabrication of dust cleaning machine**
Design, Fabrication and analysis of dust cleaning machine using integrated software to detect, inspect and clean various debris and dust particles from the surface.

Soft Skills

- Teamwork and Flexibility
- Clear communication (English, Hindi, Kannada)
- Imaginative and determined
- Competent and Quick learner

Work experience

Dvigi Torq Transfer Sysytem

Sep 2020 - Oct 2020

Worked with milling machines to produce inner gear of an engine using various cutting tools to remove material from the workpiece.

Proficiency in operating lathe machines, including setting up, loading materials, adjusting speeds and feeds, and executing machining operations according to engineering drawings and specifications.

Skills Acquired-

- Tool Selection and Setup
- Material Handling
- Measurement and Inspection
- Blueprint Reading
- Problem Solving
- Measurement and Inspection

Autoliv India Pvt. Ltd.

July 2023 - Current

Engineering/Development

- Worked closely with Research & Development of Seatbelts, Airbags and Buckles.
- Demonstrated proficiency in conducting comprehensive research to explore new technologies, materials, and methodologies.
- Possessed a strong analytical mindset and adept problem-solving skills, enabling the identification and resolution of technical challenges throughout the R&D process.
- Designed and developed mechanical components and systems using CAD software, ensuring adherence to project specifications and performance requirements.
- Collaborated with cross-functional teams to prototype and test mechanical designs, iterating on concepts to optimize performance and functionality.
- Contributed to the documentation of design specifications, test procedures, and project reports to support the R&D process and facilitate knowledge sharing within the organization.
- Participated in design reviews and technical discussions to identify areas for improvement and implement design modifications based on feedback and testing results.

Certifications

1. CATIA V5 Part Design Expert

April 2024

- Proficiency in CAD Modeling
- Assembly Design
- Drafting and Annotation
- Sheet Metal Design
- Kinematics and Mechanism Design
- Analysis and Simulation Integration
- Piping
