PERSONAL DETAILS

- Date of Birth : 07/02/2001

OBJECTIVE

To work in an environment which encourages me to succeed and grow professionally where I can utilize my skills and knowledge appropriately.

EDUCATION

2016

- **Rainbow International School**

83%

2016-2018

- **North Bangalore PU College**

PCMB

60.33%

2018-2022

- **Sri Krishna Institute of Technology**

BE (Electronics and Communication Engineering) : VTU | Bengaluru

75%

SKILLS

- PERSONAL SKILLS :-
- Adaptability, Team Building, Problem Solving, Decision Making, Quick Learner.
- TECHNICAL SKILLS :-
- 1. CORE JAVA :- * Create classes and objects and add methods to a class. * Excellent in Inheritance and Polymorphism. * Strong in Type Casting and Encapsulation. * Sound knowledge in Abstraction. * Implement error handling techniques using Exception Handling * Learnt and implemented java Threads. * Very good in programming/coding in edit plus and Eclipse. * Knowledge of java Bean and Singleton class.
- 2. SQL :- * Knowledge on SQL Programming in Oracle 10g. * Written SQL queries for DML, DDL and TCL operations. * Knowledge on DQL, DCL operations. * Good knowledge of SQL Sub-queries. Joins and Predefined Functions. * Good in Normalization.
- 3. Web Technology :- * Knowledge on HTML * Knowledge on CSS * Knowledge on Javascript. * Good in designing Websites (webpages and login pages).
- 4. JDBC :- * Knowledge on jdbc driver. * Knowledge on jdbc connection steps * Knowledge on jdbc transaction * Knowledge on creating Maven project. * Knowledge in relational database and implementation.

- Hibernate :- * Knowledge on Hibernate framework. * Knowledge on Hibernate mapping. * Knowledge on one to one and many to one associations.
- Spring :- Knowledge on spring framework
- SOFTWARE EXPOSER:- Ms word, Excel, JDK 1.8, EDIT plus, Eclipse, Oracle 10g, MySql Workbench, visual studio.

ACHIEVEMENTS/ CERTIFICATIONS

- I have completed my Core Java, SQL, Web Technology Training course at "Jspider" Rajajinagar Bangaluru.

INTERNSHIP EXPERIENCE

13thSep2021 -

13thOct2021

- **Bharat Electronics Limited**
Intern
* Worked as Embedded Development (VHDL) intern in Product Development Innovation(PDIC) department in BEL.
* Gained confidence to work efficiently and helped to progress the skill acquired in the previous organisation.
* It was helpful as Competative tasks were assigned with group discussion and Q&A sessions.
* The tasks were based on the basics of VHDL coding and execution.

8thAug2021 -

8thSep2021

- **Karunadu Technologies Private limited**
Intern
* Worked as PCB intern in Karunadu Technologies.
* It was helpful and gained a confidence to work efficiently, as a competitive tasks were given to carry out the projects.
* Tasks were given to design certain circuits using Orcad PCB Software

EXPERIENCE

- Job Title:- Technical Support Representative
Company name:- Franpos
- Worked as an technical support representative for about 6 months in Franpos which is a US based company.
* Knowledge on troubleshooting steps.
*Experience in Solving Zoho tickets according to clients needs.

PROJECTS

- **Smart Baby Cradle**

- * This paper presents the design and implementation of a new indigenous low cost baby Cradle that swing automatically for a stipulated time when baby starts crying, which helps to soothe the baby and to make the baby fall asleep.
- * For this it has a cry analysing system which detects the baby cry voice and accordingly the cradle swings till the baby stops crying.
- * The speed of the cradle can be controlled as per the user need.
- * Even after the stipulated time, if the baby still continues to cry, then the cradle automatically generate a message and sends it to parents or the guardian indicating that baby needs your attention.
- * This system helps working parents and nurses to take care of babies without the need of the physical attention.

- **Software Description**

Programming language : C language

- **Hardware description**

My role :

We were a group of 4 members. my role in this project, was that I actively took part in paper work, model making and hardware part.

Components used :

- * Audio sensors
- * Arduino Uno
- * GSM Module
- * Motor

In addition to this we have added

- * Temperature sensor
- * Wet sensor

- In a fast moving world, this is a contribution to all the mothers out there who are really passionate about their career, a job made easy for the nurses and nannies.
- * A one time investment device which can be passed on to your next generations, which can be accessible to every other middle class family.
- * It's a simple, DIY and safe prototype, which keeps 24/7 monitor over the baby.
- * The microcontroller is reprogrammable.

PROJECT ACHIEVEMENTS

- Awards received for our final year project
- * Won "Best paper Award" held at Oxford College of Engineering 2022.
- * Won 2nd place in Ideathon 2022, SKIT
- * Won 2nd prize in "State level project exhibition technical 2022".
- * Won 2nd place in "Anveshana-2022" , SKIT

LANGUAGES

- English, Kannada, Hindi

INTERESTS

- Dance, Sports (Throwball player), Pencil sketching, Aptitude Solving

EXTRA CURRICULAR ACTIVITIES

- * Participated in District level Throwball Competition in 2015.
- * Conducted and co-ordinated some of the events in SKIT.
- * Participated in "Public awareness mask Campaign - SKIT SSR CELL"

DECLARATION

- I hereby declare that the above mentioned particulars are true to the best of my knowledge and belief

Place : Bengaluru
