EDUCATION

2022

- **Graduated in BE electronics and communication**
Sri Krishna Institute of Technology
8.0

2019

- **Diploma in electronics and communication.**
manav bharthi university
66

2016

- **secondary education**
Sri Basaveshwara English high school
94

EXPERIENCE

24th-sep-2022 - 01-jun-2023

- **Java full stack developer**
J spider
Completed java full stack course in j spider Rajajinagar.

21-Aug-2022 - 21-Sep-2022

- **Intern**
Utthunga technologies
Completed one month internship in Utthunga technologies based on embedded systems.

8-aug-2021 - 13-sep-2021

- **Internship**
Karunadu technologies
* Worked as PCB intern in Karunadu Technologies.
* It was helpful and gained a confidence to work efficiently, as a competitive tasks were given to carry out the projects.
* Tasks were given to design certain circuits using Orcad PCB Software

TECHNICAL SKILLS

- **.CORE JAVA**
Excellent in Inheritance and Polymorphism, Encapsulation, Abstraction. Very good in

Collection Frameworks.

- Implement error handling techniques using Exception Handling and java Threads.
- Good in programming/coding in edit plus and Eclipse.

- **JDBC**

- Knowledge on jdbc driver.
- Knowledge on jdbc connection steps
- Knowledge on jdbc transaction
- Knowledge on maven project.
- Implementation .
- Knowledge in relational database.

- **SPRING FRAMEWORK**

- Spring IOC and dependency injection.
- Spring annotations.
- Maven project.

- **SQL**

- Knowledge on SQL Programming in Oracle 10g.

Written SQL queries for DML, DDL and TCL operations.

- Knowledge on DQL, DCL operations.

Good knowledge of SQL Sub-queries. Joins and Predefined Functions.

-

- **WEB TECHNOLOGY**

- Knowledge on HTML..
- Knowledge on CSS.
- Knowledge on JAVASCRIPT .

STRENGTHS

- I am an innovative and open minded person.
- I am a versatile person .
- Self motivated and confident person .
- Calm and composed and very good at coping the every situation .
- I grasp new concepts and ideas very quickly .

PROJECTS

- **Smart baby cradle**

- * This paper presents the design and implementation of a new indigenous low cost baby Cradle that swing automatically for a stipulated time when baby starts crying, which helps to soothe the baby and to make the baby fall asleep. * For this it has a cry analysing system which detects the baby cry voice and accordingly the cradle swings till the baby stops crying.
- * The speed of the cradle can be controlled as per the user need.
- * Even after the stipulated time, if the baby still continues to cry, then the cradle automatically generate a message and sends it to parents or the guardian indicating that baby needs your attention.
- * This system helps working parents and nurses to take care of babies without the need of the physical attention.

Software Description

Programming language : C language

Hardware description My role :

We were a group of 4 members. my role in this project, was that I actively took part in paper work, model making and hardware part.

Components used :

- * Audio sensors
- * Arduino Uno
- * GSM Module* Motor

In addition to this we have added

- * Temperature sensor
- * Wet sensor

In a fast moving world, this is a contribution to all the mothers out there who are really passionate about their career, a job made easy for the nurses and nannies. * A one time investment device which can be passed on to your next generations, which can be accessible to every other middle class family.

- * It's a simple, DIY and safe prototype, which keeps 24/7 monitor over the baby.
- * The microcontroller is reprogrammable.

EXTRA CURRICULAR ACTIVITIES

- Recognized and won prizes collegiate fest.

- Won prize in cricket in intra college sports day.
- Participated in "public awareness mask campaign-SKIT SSR CELL".

AWARDS FOR PROJECTS

- **Smart baby cradle**
 - * Won "Best paper Award" held at Oxford College of Engineering 2022.
 - * Won 2nd place in Ideathon 2022, SKIT
 - * Won 2nd prize in "State level project exhibition technical 2022".
 - * Won 2nd place in "Anveshana-2022" , SKIT
