- ❑ Generating leads based on the sources traffic
- ❑ Search engine ranking reports, weekly, and monthly traffic data reports, monthly work status reports (Detailed)
- ❑ **Tools used:** Ahref, Moz, Google Analytics, Google Tag Manager, Google Search console
- ❑ Analyzing competitor keywords, content, blogs, backlinks and implementing

Achievements:

- Good percentage of organic traffic is improved
- Nearly 40% of direct traffic is improved
- Also the increase of referral traffic is improved
- Started as an Intern and within 2 years promoted as an SEO Manager

Challenges or Implementations:

- First I have done an end to end SEO audit. Analyzed all the missing factors and fixed. (There are no proper meta tags, heading tags, proper content in the main page and also product page, no alt tag for the images, no hyperlinks, page speed was 35+ only now 70+, loading time is more, pages are not mobile friendly)
- No proper internal linking for blogs there are many hyperlinks given from third party low domain authority sites.
- Implemented proper language tags
- Implemented Sitemap, Robots.txt
- There are some search console errors, fixed all those errors.
- GA was not implemented properly (added new goals)
- To reduce bounce rate implemented blog templates with more images and proper technical content because if I am adding proper technical content we are ranking well and it helped us to bring the right targeted audience.
- Played with many content strategies in website and in blogs.
- High search volume and high competitive keywords are ranking in 1st position and 1st page
- Bringing keywords to answer box
- Expert in giving suggestions related to website changes for driving traffic and leads

2. **Senior Analyst** at “Responsive Media Tech Services”
